

NDA Health and Wellness Policies:

1. Students and visitors should be fever-free (without the influence of fever-reducing medicine) for 24 hours before returning to the studio.
2. Students and visitors should be free of continuous coughing.
3. Students and visitors should remain away from the studio for 24 hours after their last episode of vomiting or diarrhea.
4. Students and visitors should remain away from the studio for 24 hours after taking the first dose of an antibiotic for infection.
5. Students and visitors with head lice will not be allowed at the studio until free of living specimens and all nits for a minimum of 24 hours. Please be advised, simply having "treated" for head lice does NOT ensure that all living specimens and all nits are removed.
6. Students and visitors should not attend the studio with pink eye/conjunctivitis until on medication for 24 hours, with primary care provider's written orders or until clearing of the eye.
7. Students or visitors with any illness characterized by rash, recurrent episodes of bleeding, or any skin lesions or sores, should remain away from the studio until properly treated and released by a doctor.

Please remember, that students who have to miss classes, are welcome to contact the front desk to schedule a make-up class. Missed classes will not be credited or refunded but may be made up within 30 days.

Thank you so much for your help keeping all our dancers and staff healthy. As always, if you have any questions or concerns, please do not hesitate to call or email.

Sincerely,

NorthPointe Dance Academy Directors
